Rock the House - Available for Immediate Release 27/09/05

Come on down and rock the house on Tuesday 11th October from 8pm at the Marquee Club, cnr P'matta & Pyrmont Bridge Rds., Camperdown.

It should be an earth shattering experience. We will hear rockin' guitarist Patrick Carr jamming his Les Paul and B52 amp along to electro/breaks DJs Andy Maher and AKA. Totally live baby - live! Forget the Bodyrockers - this is the real thing.

There will also be a special turntablism demonstration by Australia's number 1 scratch DJ Digits. Digits is revolutionizing DJing with his fresh approach to the decks. Just check out his austtablist.com website.

Featuring awesome new lighting courtesy of Light Emotion you can find out why the American Audio HTD45 is considered the "Hummer of turntables" and hear B52 Stealth: the latest in heavy rock guitar amp sounds from the USA.

Entry is FREE.
